

APPENDIX C

Federal, State and Non-Profit Conservation Designations

Federal Conservation Designations

BLM	Bureau of Land Management Sensitive Species
CNF	Cleveland National Forest Sensitive Species
FE	Federally-listed Endangered
FS	Forest Service Region 5 Sensitive Species
FT	Federally-listed as Threatened
MNBMC	Fish and Wildlife Service Migratory Nongame Birds of Management Concern
PE	Presumed Extinct
PFT	Proposed for listing as Federally Threatened
PIF	Partners in Flight Watch List
SBNF	San Bernardino National Forest Sensitive
SMC	Fish and Wildlife Service Region 1 Species of Management Concern

California State Conservation Designations

CDF	California Department of Forestry and Fire Protection Sensitive Species
CSC	California Special Concern Species
P	California Department of Fish and Game Protected and Fully Protected Species
R	California Rare Species
SE	State-listed as Endangered
ST	State-listed as Threatened

California Native Plant Society R-E-D Cod R (Rarity)

- **1** Rare, but found in sufficient numbers and distributed widely enough that the potential for extinction of extirpation is low at this time.
- **2** Occurrence confined to several populations or to one extended population.
- **3** Occurrence limited to one or a few highly restricted populations, or present in such small numbers that it is seldom reported.

E (Endangerment)

- **1** Not endangered.
- **2** Endangered in a portion of its range.
- **3** Endangered throughout its range.

D (Distribution)

1 More or less widespread outside of California.

2 Rare outside California.

3 Endemic to California.

List 1A: Plants presumed extinct in California.

List 1B: Plants rare, threatened or endangered in California and elsewhere. Note: Plants on CNPS list 1B meet California Department of Fish and Game Criteria for Rare or Endangered listing.

List 2: Plants rare or endangered in California, but more common elsewhere.

List 3: Plants about which more information is needed.

List 4: Plants of limited distribution.

California Exotic Pest Plant Council (CalEPPC) Lists

List A: Most Invasive Wildland Pest Plants; documented as aggressive invaders that displace natives and disrupt natural habitats. Includes the two sub-lists below:

List A-1: Widespread pests that are invasive in more than three (3) regions as defined in The Jepson Manual; Higher Plants of California.

List A-2: Regional pests that are invasive in three (3) or less regions as defined in The Jepson Manual; Higher Plants of California.

Red Alert: Pest plants with potential to spread explosively; infestations currently small or localized.

List B:

Wildland Pest Plants of Lesser Invasiveness; invasive pest plants that spread less rapidly and cause a lesser degree of habitat disruption; may be widespread or localized. If found, alert CalEPPC, County Agricultural Commissioner or California Department of Food and Agriculture.
